**A VIRTUAL + PHYSICAL GAMING EXPERIENCE**

@MERGE3DP

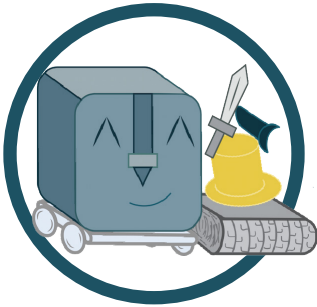

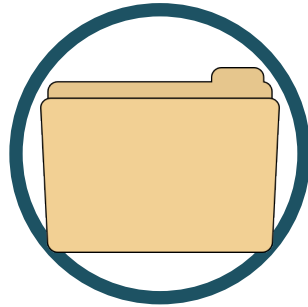

## Merge is a gaming experience like no other.

Using 3D printing, virtual rewards become physical takeaways to aid you in your adventure.

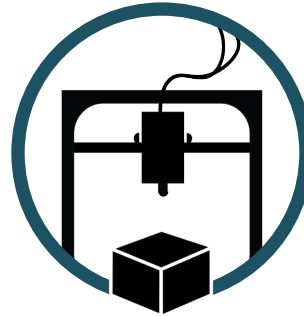

You are 3D-P or “Printy,” a 3D printer turned into a sentient robot. Labelled “Nonessential,” Printy was left behind when humans left Earth. Printy is on the search for his creator, Dr. Frank. Upgrade Printy over time by collecting parts.

Printy begins with only a base, but will need more.

“Styl Files” in the game contain parts/upgrades.

Styl Files are sent to a 3D printer for physical Printy.

Print parts for customizing and clues that aid in-game
